Description of Activity	<ol style="list-style-type: none">1. Compared the records of the Custodian to the records provided by the Administrator to verify that the platinum bars are held in the name of the applicable account;2. Reconciled the total weight of platinum bullion as recorded by the Administrator to the records of the Custodian as at the Audit Reference Date;3. Visually checked a random sample of 10 percent of the bars within the account, via a live video stream, for the bar number, brand and purity;4. Weighed a random sample of platinum bars, equating to approximately 5 percent of the 10 percent random sample. Bars were weighed in troy ounces to the nearest thousandth of an ounce. Details of each bar weighed were recorded;5. Reconciled the physical movement of bars which occurred during the inspection period between 31 December 2020 and 4 February 2021.
Anomalies	No anomalies were identified in respect of the platinum bars as at 31 December 2020.

The audit was carried out to the best of our knowledge and this report reflects our findings as at the time and place of the audit only.
