The Directors present their semi annual report and unaudited financial statements of Boost Issuer PLC (the "**Company**" or the "**Issuer**") for the period from 1 January 2018 to 30 June 2018.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The Company is a limited liability company, incorporated in Ireland on 30 July 2012 under Irish Company Law. The Company is an orphan vehicle, with the shares held for the benefit of a charitable trust (see note 9). The Company is registered in Ireland as a Section 110 vehicle. The Company has been established as a special purpose vehicle for the purpose of issuing exchange traded securities. The Company commenced trading on 5 December 2012.

The Company established a Collateralised ETP Securities Programme (the "**Programme**") under which the Company issues, on an ongoing basis, collateralised exchange traded securities (the "**ETPs**") of different classes (each a "**Class**") linked to indices providing exposure to a range of asset classes including equities, commodities, fixed income and currencies. The ETP Securities may have long or short, and leveraged or unleveraged, exposure to the daily performance of the referenced index.

Each Class constitutes limited recourse obligations of the Company, secured on and payable solely from the assets constituting the ETP in respect of such Class. Each Class of ETPs may comprise one or more tranches.

The ETPs have been listed for trading on the London Stock Exchange, Frankfurt Stock Exchange, and/or Borsa Italiana and applications may be made to other European Stock Exchanges. The Company uses the net proceeds of the issuance of ETPs to enter into Total Return Swap Transactions ("**TRS**") to hedge its payment obligations in respect of each Class of the ETPs with one or more Swap Providers once the Swap Provider has delivered eligible collateral. The TRS for each Class of ETPs will produce cash flows to service all the Company's payment obligations in respect of that Class.

Cash flows are only as a result of subscriptions and redemptions of ETPs and expenses incurred. A movement in collateral does not generate a cash flow. The proceeds of the issuance of a tranche of ETPs of a Class will be paid by the Issuer to one or more of the Swap Providers with whom the Issuer has entered into a TRS in connection with that Class, in order to increase the aggregate number of Index Units in respect of the TRS entered into by the Issuer in relation to that Class in proportion to the increase in the number of ETPs of that Class then outstanding. The Issuer's payment obligations in respect of the ETPs of a Class will be covered entirely from payments received by the Issuer from the Swap Provider(s) in respect of such TRS(s). Pursuant to the terms of each Credit Support Document, the Issuer will be obliged to pay amounts equal to each distribution made on collateral held by it to the relevant Swap Provider upon receipt.

The ETPs do not bear interest at a prescribed rate. The return (if any) on the ETPs shall be calculated in accordance with the redemption provisions.

FX ETPs (4)	0	4	2
Other ETPs (1)	1	1	1
Total Classes Listed (68)	51	52	34

AUM

As at 30 June 2018 the total assets under management amounted to EUR 660,552,833 (2017: EUR 709,445,261).

Fees

During the period ended 30 June 2018, the Company generated income as follows:

	2018 EUR	2017 EUR
Management Fees	2,799,180	2,621,004
Order Fees	-	800
Total Fee Income	2,799,180	2,621,804

Under the terms of the agreement with Boost Management Limited, the Company accrued expenses equal to the management fees and, after taking into account other operating expenses, the Company's operating loss before tax for the period ended 30 June 2018 was EUR 544 (2017: EUR 550).

FUTURE DEVELOPMENTS

The Directors expect the current level of activity to continue to grow into the foreseeable future.

The Directors are satisfied that the derivative financial instruments in place appropriately manage the risk exposure of the Company as detailed in note 11.

RESULTS AND DIVIDENDS FOR THE PERIOD

The results for the period are set out on page 12.

DIVIDENDS

The Directors do not recommend the payment of a dividend (2017: nil).

DIRECTORS AND SECRETARY

There have been no appointments or resignations of Directors during or subsequent to the period.

DIRECTORS, SECRETARY AND THEIR INTERESTS

As at 30 June 2018 or at any time during the period, the Directors and the secretary did not hold any interests in the shares and ETPs of the Company (2017: Nil).

PRINCIPAL RISKS AND UNCERTAINTIES

Pursuant to the European Referendum Act 2015, a referendum on the United Kingdom's membership of the EU (the "UK's EU Referendum") was held on 23 June 2016 with the majority voting to leave the EU. On 29 March 2017, the UK Government exercised its right under Article 50 of the Treaty of the European Union to leave the EU. The 2-year period of negotiations between the UK Government and the Governments of the other EU Member States to determine the manner of the UK's departure from the EU will end on 29 March 2019. The UK and EU governments have each warned financial services firms to prepare for a 'hard' Brexit in which UK firms are treated in the same way as other non-EU firms and therefore lose largely their ability to provide services to EU clients from the UK. It is currently unclear whether a transitional period will be agreed that delays the UK's exit, for example by 12 months until 29 March 2020. If such a transitional period is not agreed and a 'hard' Brexit scenario ensues, there could be short-term volatility which could have a negative impact on general economic conditions in the UK and business and consumer confidence in the UK, which may in turn have a negative impact elsewhere in the EU and more widely. The longer-term consequences may be affected by the length of time it takes for the UK to leave the EU and the terms of any future arrangements the UK has with the remaining member states of the EU. Among other things, the UK's decision to leave the EU could lead to instability in the foreign exchange markets, including volatility in the value of the pound sterling or the euro.

Deteriorating business, consumer or investor confidence could lead to (i) reduced levels of business activity; (ii) higher levels of default rates and impairment; and (iii) mark to market losses in trading portfolios resulting from changes in credit ratings, share prices and solvency of counterparties.

No assurance can be given that such matters would not adversely affect the market value and/or the liquidity of the ETP Securities in the secondary market and/or the ability of the Issuer to satisfy its obligations under the ETP Securities.

The key risks to the business relate to the use of financial instruments. A summary of these risks are set out in note 11 to the financial statements.

POST BALANCE SHEET EVENTS

The post balance sheet events are disclosed in note 12 to the financial statements.

ACCOUNTING RECORDS

The Directors are responsible for ensuring that accounting records, as outlined in Section 281 to 285 of the Companies Act 2014 are kept by the Company. To achieve this, the Directors have appointed professionally qualified accounting personnel with appropriate expertise and have provided adequate resources to the finance function who ensure that the requirements of Sections 281-285 of the Companies Act 2014 are complied with. The books of account are maintained at the Company's registered office at 2 Grand Canal Square, Grand Canal Harbour, Dublin 2.

GOING CONCERN

The Directors believe the Company is a going concern. The nature of the Company's business dictates that the outstanding ETPs may be redeemed at any time by the holders thereof and in certain circumstances may be redeemed by the Company. As the redemption of ETPs will coincide with the termination of an equal amount of TRS, no liquidity risk is considered to arise. All other liabilities of the Company are being met by Boost Management Ltd; therefore the Directors consider the Company to be a going concern and have prepared the financial statements on this basis.

CORPORATE GOVERNANCE STATEMENT

INTRODUCTION

The Company is subject to and complies with the Irish statute comprising the Companies Act 2014 and the listing rules of the London Stock Exchange, Frankfurt Stock Exchange, and Borsa Italiana, which are applicable to companies listing instruments like the ETPs.

No Director has a significant direct or indirect holding of securities in the Company. No Director has any special rights of control over the Company's share capital.

There are no restrictions on voting rights.

Appointment and replacement of Directors and Amendments in the Articles of Association

With regard to the appointment and replacement of Directors, the Company is governed by its Articles of Association and Irish Statute comprising the Companies Act 2014. The Articles of Association themselves may be amended by special resolution of the shareholders.

Powers of Directors

The Board is responsible for managing the business affairs of the Company in accordance with the Articles of Association. The Directors may delegate certain functions to the Issuing and Paying Agent ("IPA") and other parties, subject to the supervision and direction of the Directors. The Directors have delegated the day to day administration of the Company to the IPA.

Financial Reporting Process

The Board of Directors (the "Board") is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has established processes regarding internal control and risk management systems to ensure its effective oversight of the financial reporting process. These include appointing the IPA to maintain the accounting records of the Company independently of the Manager. The IPA is contractually obliged to maintain proper books and records as required by the Corporate Administration agreement. The IPA is also contractually obliged to prepare for review and approval by the Board the annual report including financial statements intended to give a true and fair view.

CORPORATE GOVERNANCE STATEMENT (*continued*)

Financial Reporting Process (continued)

The Board evaluates and discusses significant accounting and reporting issues as the need arises. From time to time, the Board also examines and evaluates the IPA's financial accounting and reporting routines and monitors and evaluates the external auditors' performance, qualifications, and independence. The IPA has operating responsibility for internal control in relation to the financial reporting process and the IPA's report to the Board.

Risk Assessment

The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and ensuring the processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board has also put in place processes to identify changes in accounting rules and recommendations and to ensure that these changes are accurately reflected in the Company's financial statements.

Control Activities

The IPA is contractually obliged to design and maintain control structures to manage the risks which the Board judges to be significant for internal control over financial reporting. These control structures include appropriate division of responsibilities and specific control activities aimed at detecting or preventing the risk of significant deficiencies in financial reporting for every significant account in the financial statements and the related ETPs' in the Company's annual report.

Transfer of shares

The instrument of transfer of any share shall be executed by or on behalf of the transferor and, in cases where the share is not fully paid, by or on behalf of the transferee. The transferor shall be deemed to remain the holder of the share until the name of the transferee is entered on the register in respect thereof. The Directors in their absolute discretion and without assigning any reason therefore may decline to register any transfer of a share. If the Directors refuse to register a transfer they shall, within two months after the date on which the transfer was lodged with the Company, send to the transferee notice of the refusal.

Audit Committee

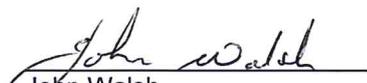

The sole business of the Company relates to the issuance of exchange traded securities.

Given the functions performed by the IPA and the limited recourse nature of the securities issued by the Company, the Board of Directors has concluded that there is currently no need for the Company to have a separate audit committee in order for the Board to perform effective monitoring and oversight of the internal controls and risk management systems of the Company in relation to the financial reporting process. Accordingly the Company has availed itself of the exemption under 91(9) (d) of S.I. No. 220/2010 - European Communities (Statutory Audits) (Directive 2006/43/EC) Regulations 2010.

AUDITORS

In accordance with Section 383 (2) of the Companies Act, 2014, the auditors, Ernst & Young, Chartered Accountants and registered Auditors have expressed their willingness to continue in office.

Approved and authorised for issue on behalf of the Board:

John Walsh
Director

Lisa Hand
Director

Date: 27 September 2018

DIRECTORS' RESPONSIBILITIES STATEMENT

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

Irish Company law requires the Directors to prepare financial statements giving a true and fair view of the state of affairs of the Company and the profit or loss of the Company for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the EU.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position, of the Company, and otherwise comply with the Companies Act 2014.

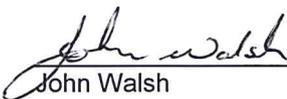

In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with IFRS and ensure that they contain the additional information required by the Companies Act 2014; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The Directors are responsible for ensuring that the Company keeps or causes to be kept adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy, enable them to ensure that the financial statements and Directors' Report comply with the Companies Act 2014 and enable the financial statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act 2014.

The accompanying Notes form an integral part of these unaudited financial statements

1. GENERAL INFORMATION

Boost Issuer plc (the “Company”) was incorporated on 30 July 2012 in the Republic of Ireland with registered number 515981. The registered office of the Company is 2 Grand Canal Square, Grand Canal Harbour, Dublin 2. The Company commenced trading on 5 December 2012.

The Company is a special purpose company which has been established for the purpose of issuing exchange traded securities linked to different indices providing exposure to a range of asset classes including equities, commodities, currencies and fixed income.

The Company has no direct employees (2017: Nil).

The Company established a Collateralised ETP Securities Programme under which the Company issues on an ongoing basis collateralised exchange traded securities (the “ETPs”) of different classes (each a “Class”) linked to indices providing exposure to a range of asset classes including equities, commodities, fixed income and currencies. The ETP Securities may have long or short, and leveraged or unleveraged, exposure to the daily performance of the referenced index. During the period the Company issued ETPs under the terms of the Collateralised ETP Securities Programme prospectus.

The Company’s principal activity is the listing and issue of ETPs. These securities are issued as demand requires. The Company purchases a matching TRS from swap provider(s) to hedge its liabilities and ensure the assets can service its liabilities. The number and terms of ETP Securities outstanding will match the number and terms of ETP Swap Contracts so that the obligations of Boost and the Swap Provider (the “SP”) match. The SP will use the same pricing formulae as the Determination Agent (DA) so both the DA and the SP should be able to calculate the same price independently of each other – the price of an ETP Swap Contract will equal the price of an ETP Security. Boost Management Limited supplied and/or arranged for the supply of all administrative services to the Company and paid all management and administration costs of the Company, in return for which the Company pays Boost Management Limited a Management Fee.

The Company considers the capital management and its current capital resources to be adequate to maintain the on-going listing and issue of ETPs.

ETPs had been issued through series in Euro, US Dollar, Pound Sterling and Japanese Yen.

All ETPs in issue at 30 June 2018 are listed on the main market of the London Stock Exchange, Frankfurt Stock Exchange and/or on the Borsa Italiana.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Going Concern

The nature of the Company’s business dictates that the outstanding ETPs may be redeemed at any time by the holders thereof and in certain circumstances may be redeemed by the Company. As the redemption of ETPs will coincide with the termination of an equal amount of TRS, no liquidity risk is considered to arise. All other liabilities of the Company are being met by Boost Management Ltd. Management have confirmed that the business is running in accordance with its business plan therefore the Directors consider the Company to be a going concern and have prepared the financial statements on this basis.

(b) Basis of preparation

The unaudited financial statements are prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union, and comply with those parts of the Companies Act, 2014 applicable to Companies reporting under IFRS.

2. **SIGNIFICANT ACCOUNTING POLICIES (*continued*)**

(c) **Basis of measurement**

The unaudited financial statements have been prepared on the amortised cost basis except financial assets and liabilities designated at fair value through profit or loss, which are measured at fair value.

New and amended standards and interpretations

The Company applied, for the first time, certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2018.

The nature and the impact of each new standard and amendment is described below:

IFRS 9, 'Financial instruments', addresses the classification, measurement and recognition of financial assets and financial liabilities

The Company adopted IFRS 9 *Financial Instruments* on its effective date of 1 January 2018. IFRS 9 replaces IAS 39 *Financial Instruments: Recognition and Measurement* and introduces new requirements for classification and measurement, impairment and hedge accounting. IFRS 9 is not applicable to items that have already been derecognised at 1 January 2018, the date of initial application.

Classification and measurement: The Company has assessed the classification of financial instruments as at the date of initial application and has applied such classification retrospectively. Based on that assessment:

- All financial assets (TRSs) previously held at fair value continue to be measured at fair value;
- Financial assets previously classified as loans and trade receivables are held to collect contractual cash flows and give rise to cash flows representing solely payments of principal and interest. Thus, such instruments continue to be measured at amortised cost under IFRS 9; and
- The classification of financial liabilities under IFRS 9 remains broadly the same as under IAS 39. The main impact on measurement from the classification of liabilities under IFRS 9 relates to the element of gains or losses for financial liabilities designated as at fair value through profit or loss attributable to changes in credit risk. IFRS 9 requires that such element be recognised in other comprehensive income (OCI), unless this treatment creates or enlarges an accounting mismatch in profit or loss, in which case, all gains and losses on that liability (including the effects of changes in credit risk) should be presented in profit or loss. The Company continues to value the ETPs at fair value through profit or loss and to avoid any mismatch with the TRSs all gains and losses on the ETPs are presented through profit or loss.

Impairment: IFRS 9 requires the Company to record expected credit losses on all of its trade receivables, either on a 12 month-month or lifetime basis. The Company adopted a simplified approach for calculating expected credit losses, as allowed under IFRS 9 where the trade receivables are determined to be low credit risk]. The Company calculates a provision based on the historical default rates over the expected life of the trade receivables adjusted for forward-looking estimates.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Basis of measurement (continued)

New and amended standards and interpretations (continued)

The Directors assessed the exposure of the Company to credit risk on its trade receivables during the period. At the period end, trade receivables mostly consisted of management fees receivable from BNP Arbitrage S.N.C., who have no history of default or late payment. As described further in note 11(d) 'credit risk', BNP Arbitrage S.N.C. had a credit rating of A from S&P at the period end therefore the Directors expect a low probability of default of BNP Arbitrage S.N.C. in the next 12 months. Based on these observations Company has recognised a provision for expected credit losses based on an assumption of a 0.1% probability of default; this amendment has not had a material impact on the unaudited financial statements.

Hedge Accounting: IFRS 9 does not change the principles of how an entity accounts for effective hedges. The Company has not applied hedge accounting under IAS 39 nor will it apply hedge accounting under IFRS 9.

Impact of adoption of IFRS 9

The classification and measurement requirements of IFRS 9 have been adopted retrospectively as of the date of initial application on 1 January 2018. However, the Company has chosen to take advantage of the option not to restate comparative. Therefore, the 2017 figures are presented and measured under IAS 39. The following table shows the original measurement categories in accordance with IAS 39 and the new measurement categories under IFRS 9 for the Company's financial assets and financial liabilities as at 1 January 2018:

Financial assets

1 January 2018	IAS 39 classification	IAS 39 measurement €	IFRS 9 classification	IFRS 9 measurement €
Total return swaps	Held for trading at fair value through profit or loss	757,597,943	Fair value through profit or loss	757,597,943
Trade and other receivables	Loans and receivables	472,877	Amortised cost	472,404
Cash and cash equivalents	Loans and receivables	18,493	Amortised cost	18,493

Financial liabilities

1 January 2018	IAS 39 classification	IAS 39 measurement €	IFRS 9 classification	IFRS 9 measurement €
Exchange traded products	Held for trading at fair value through profit or loss	757,597,943	Fair value through profit or loss	757,597,943
Trade and other payables	Loans and receivables	477,632	Amortised cost	477,632

2. **SIGNIFICANT ACCOUNTING POLICIES (*continued*)**

(c) **Basis of measurement (*continued*)**

New and amended standards and interpretations (*continued*)

In line with the characteristics of the Company's financial instruments as well as its approach to their management, the Company neither revoked nor made any new designations on the date of initial application. IFRS 9 has not resulted in changes in the carrying amount of the Company's financial instruments due to changes in measurement categories. TRSs were classified as fair value through profit or loss under IAS 39 and are still classified as fair value through profit or loss under IFRS 9. Trade and other receivables, cash and cash equivalents, and Trade and other payables were classified as loans and receivables and measured at amortised cost and continue to be measured at amortised cost.

The application of the expected credit losses model under IFRS 9 has not significantly changed the carrying amounts of the Company's amortised cost financial assets. An expected credit losses allowance of €473 has been recorded against the Company's trade receivables under IFRS 9 compared to no impairment recorded under IAS 39.

The carrying amounts of amortised cost instruments continued to approximate these instruments' fair values on the date of transition after transitioning to IFRS 9.

IFRS 15 Revenue from contracts with customers

The Company adopted IFRS 15 *Revenue from contracts with customers* on its effective date of 1 January 2018. IFRS 15 replaces IAS *Revenue* and establishes a five-step model to account for revenue arising from contracts with customers. There was no impact of adopting IFRS 15 to the Company.

(d) **Functional and presentation currency**

These unaudited financial statements are presented in Euro (€) which is the Company's functional currency. The Directors have elected to present the Company's unaudited financial statements in Euro. Functional currency is the currency of the primary economic environment in which the entity operates. The Directors of the Company believe that Euro (€) most faithfully represents the economic effects of the underlying investing and financing activities of the Company.

Transactions in currencies other than Euro are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currency are retranslated at the rates prevailing at the balance sheet date.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary items that are denominated in foreign currencies are recognised in profit or loss in the period. Foreign exchange gains and losses on financial assets and financial liabilities are included in the net foreign exchange gain/(loss).

2. **SIGNIFICANT ACCOUNTING POLICIES (*continued*)**

(e) **Use of estimates and judgements**

The preparation of the unaudited financial statements requires management to make judgements, estimates, and assumptions that may affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and in future periods affected.

Key sources of estimation uncertainty: Fair value of financial instruments

Determining fair values

The determination of fair value for financial assets and liabilities for which there is no observable market price requires the use of valuation techniques as described in accounting policy (f) "Financial Instruments". For financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

Fair values of ETPs are calculated on a daily basis using predetermined formula, where prices of underlying indices and swap costs are used as inputs to the formula. These prices are compared to prior day prices and any variation results in either an unrealised gain or loss.

(f) **Financial instruments**

Classification

The Company classifies its financial assets and financial liabilities as financial assets and liabilities at fair value through profit or loss at initial recognition in accordance with IFRS 9: Financial Instruments. The category of financial assets and liabilities at fair value through the profit or loss is sub-divided into:

Financial assets measured at fair value through profit or loss: A financial asset is measured at fair value through profit or loss if:

- (a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding;
- (b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- (c) At initial recognition, it is irrevocable designated as measured at fair value through profit or loss when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise measuring assets or liabilities or recognizing the gains and losses on them on different bases.

The Company has designated its investments in the total return swaps, as well as the ETPs, as financial assets and liabilities respectively.

2. **SIGNIFICANT ACCOUNTING POLICIES (*continued*)**

(f) **Financial instruments (*continued*)**

Recognition

The Company initially recognises all financial assets and liabilities on the trade date at which the Company becomes a party to the contractual provisions of the instruments.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Initial measurement

Financial assets and financial liabilities at fair value through profit or loss are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in profit or loss.

Financial liabilities (other than those designated at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue. For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Company recognises the difference in the Statement of Comprehensive Income, unless specified otherwise.

Subsequent measurement

After initial measurement, the Company measures financial instruments, which are classified as at fair value through profit or loss, at fair value. Subsequent changes in the fair value of those financial instruments are recorded in net gain or loss on financial assets and liabilities at fair value through profit or loss. Interest and dividend earned or paid on these instruments are recorded separately in interest revenue or expense and dividend revenue or expense.

Total return swaps are valued at fair value utilising predefined formulae and market prices consistent with the ETP valuation process. In the absence of readily available market prices the Swap Provider will provide the inputs for the valuation. Where possible the Company independently calculates the fair value and verifies the Swap Providers valuation with any variation investigated. The valuation determined by the swap counterparty may be based on assumptions of market conditions at the time of valuation, similar arms' length market transactions if available, reference to the current fair value of similar instruments and a variety of different valuation techniques such as the discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. All total return swaps are carried as assets when fair value is positive and as liabilities when fair value is negative.

Derecognition

A financial asset is derecognised where the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and either the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

2. SIGNIFICANT ACCOUNTING POLICIES (*continued*)

(f) Financial instruments (*continued*)

When the Company has transferred its right to receive cash flows from an asset (or has entered into a pass-through arrangement) and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

The Company derecognises a financial liability when the obligation under the liability is discharged, cancelled, or expired.

Offsetting

Financial assets and liabilities are offset and the net amount presented in the Statement of Financial Position when, and only when, the Company has a legal right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions.

(g) Interest income and expense

Interest income and expense are recognised using the effective interest rate method.

(h) Taxation

Corporation tax is provided on taxable profits at current rates applicable to the Company's activities in accordance with Section 110 of the Taxes Consolidation Act 1997. Deferred taxation is accounted for, without discounting, in respect of all temporary differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the Statement of Financial Position date.

Provision is made at the tax rates which are expected to apply in the periods in which the timing differences reverse. Deferred tax assets are recognised only to the extent that it is considered more likely than not that they will be recovered.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that related tax benefit will be realised.

Withholding tax is a generic term used for the amount of withholding tax deducted at source of the income and is not significant for the Company. When applicable, the Company will present the withholding tax separately from the gross investment income in the Statement of Comprehensive Income. For the purpose of the Statement of Cash Flows, cash inflows from investments are presented net of withholding taxes, when applicable.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Revenue and Operating Expenses

The Company is entitled to receive a management fee calculated by reference to a management fee rate under the specified terms of each relevant TRS and is calculated by the Manager by charging the applicable fee rate on the daily market value of each security.

The Company pays a management fee to the Manager calculated based on the amount of fees received from the Swap Provider.

The management fees are accrued on a daily basis and are recorded in the Statement of Comprehensive Income.

(k) Net gain/loss on financial assets and liabilities at fair value through profit or loss

This item includes changes in the fair value of financial assets and liabilities held for trading or designated upon initial recognition as 'at fair value through profit or loss' and excludes interest and dividend income and expense.

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period.

Realised gains and losses on disposals of financial instruments are calculated and classified as 'at fair value through profit or loss'. They represent the difference between an instrument's initial carrying amount and disposal amount, or cash payments or receipts made on derivative contracts (excluding payments or receipts on collateral margin accounts for such instruments).

(l) Segmental reporting

The standard on segmental reporting puts emphasis on the "management approach" to reporting on operating segments. An operating segment is a component of the Company that engages in business activities from which it may earn revenue and incur expenses.

The Company is engaged as one segment in a Collateralised ETP Securities Programme under which the Company issues on an ongoing basis ETP Securities of different classes linked to indices providing exposure to a range of asset classes including equities, commodities, fixed income, and currencies.

The following is a geographical analysis of the revenue by the country of the counterparty:

	Half Year ended 30 June 2018 €	Year ended 31 Dec 2017 €	Half Year ended 30 June 2017 €
France (BNP Paribas)	2,799,180	5,595,072	2,621,804
Jersey (Boost Management Ltd.)	-	2,083	-
	<u>2,799,180</u>	<u>5,597,155</u>	<u>2,621,804</u>

(m) Share Capital

The Authorised Share capital of the Company is €100,000 divided into 100,000 ordinary shares of €1 each. The Issued and called-up Share Capital is €10,000 divided into 40,000 Ordinary Shares of €0.25 each. The Issued and called-up Share Capital is presented under Equity in the Statement of Financial Position.

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE PERIOD FROM 1 JANUARY 2018 TO 30 JUNE 2018 (continued)

3. REVENUE	Half Year ended 30 June 2018 €	Year ended 31 Dec 2017 €	Half Year ended 30 June 2017 €
Management Fee Income	2,799,180	5,594,272	2,621,004
Order Fees	-	800	800
Boost Management Ltd. Annual Corporate Benefit Fee	-	2,083	-
	<u>2,799,180</u>	<u>5,597,155</u>	<u>2,621,804</u>

The Company is entitled to receive a management fee under the terms of each TRS. The Swap Provider will pay the Company variable amounts by way of payments under the terms of the relevant TRS, calculated by reference to the management fee rate as specified in Note 6 and in the manner specified in note 2(j).

4. OPERATING EXPENSES	Half Year ended 30 June 2018 €	Year ended 31 Dec 2017 €	Half Year ended 30 June 2017 €
Management Fee Expense	2,799,180	5,594,271	2,621,004
Order fees payable to Boost Management Ltd.	-	800	800
Other Expenses	543	1,084	550
	<u>2,799,723</u>	<u>5,596,155</u>	<u>2,622,354</u>

The Company pays a management fee under the terms of a management agreement entered into between the Manager and the Company, calculated based on the management fees received from the Swap Provider (current annual management fee rates outlined in note 6) plus any order form fees received by the Company.

General operational expenses such as IPA fees, Determination Agent fees, Registrar fees, Trustee fees, London Stock Exchange (LSE) and Regulatory News Service (RNS) fees, audit fees, tax fees and legal fees are borne by Boost Management Limited on behalf of the Company.

The Company had no employees during the half year.

5. TAX ON PROFIT ON ORDINARY ACTIVITIES

Corporation tax has been calculated based on results for the period at a rate of 25%. Please refer to Note 2(h) for further information. There were no deferred tax assets or liabilities at 30 June 2018.

6. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial assets designated at fair value through profit or loss – Total Return Swaps

All unrealised appreciation/depreciation on assets are attributable to market risk arising from price, commodity, currency, and interest rate risk.

The Company enters into a derivative contract with the Swap Provider (BNP Paribas as at 30 June 2018 and 30 June 2017) each time ETPs are issued or redeemed to eliminate its exposure to market risk, interest rate risk and currency risk within the Company.

The TRS entered into as at 30 June 2018, 31 December 2017 and 30 June 2017 have a value equal but opposite in sign to the value of the ETPs in issue as at 30 June 2018, 31 December 2017 and 30 June 2017, as disclosed in the table on pages 26 - 31.

Financial liabilities designated at fair value through profit or loss – Exchange Traded Products

All unrealised appreciation/depreciation on liabilities are attributable to market risk arising from price, commodity, and interest rate risk.

All ETPs in issue are listed on either the London Stock Exchange, Frankfurt Stock Exchange or the Borsa Italiana. All ETPs in issue have a maturity date as at 30 November 2062.

"Subscription Amount" means, in relation to a Subscription Order, an amount per ETP Security equal to:

(A) an amount calculated by the Determination Agent equal to the product of (i) the Price per ETP Security as at the relevant Subscription Trade Date; and (ii) one (1) plus the Swap Execution Rate; or

(B) such other amount as may be agreed in relation to such subscription between the Authorised Participant subscribing for ETP Securities in accordance with the terms of the Operating Manual, and one or more of the Swap Providers for the ETP Securities who have agreed to provide hedging to the Issuer in respect of such newly issued ETP Securities.

"Redemption Amount" means an amount per ETP Security calculated by the Determination Agent equal to the greater of:

(A) the Principal Amount of such ETP Security; and

(B) the product of (i) the Weighted Average Price per ETP Security and (ii) one (1) minus the Swap Execution Rate,

provided that, where the ETP Securities have fallen for redemption following the delivery of an Event of Default Redemption Notice or a Connected Class Acceleration Notice, the Redemption Amount shall be an amount equal to the most recently published Price per ETP Security as at the date of delivery of the Event of Default Redemption Notice or Connected Class Acceleration Notice, as the case may be.

The net proceeds of issuance of ETPs are paid to the Swap Provider under the swap transactions entered into by the Company to hedge its obligations in connection with the ETPs, provided that prior to payment the Swap Provider has delivered eligible collateral to the collateral administrator on behalf of the Issuer. Any increase in the Issuer's exposure to the Swap Provider resulting from the entry into, or increase in the size of, a swap transaction must be collateralised by delivering eligible collateral meeting the relevant requirements.

The Swap Provider transfers collateral to the Issuer in respect of its obligations under a relevant swap agreement. Collateral is in the form of government bonds or listed equities. The Bank of New York Mellon, as collateral administrator determines the market value of the collateral held on behalf of the Company.

Collateral consists of equities and/or bonds satisfying certain criteria and subject to certain margin percentages and concentration limits. All collateral as at 30 June 2018 consists of listed equities and Government bonds (minimum rating Fitch AA) (2017: Fitch AA) meeting the following required criteria:

Equities

All equity positions provided as collateral by the Swap Provider must be listed within one of the following indices:

STOXX Europe Large 200 (LCXP)
 Nikkei 225 (NKY)
 CAC 40 (CAC)
 German Stock Index (DAX)
 S&P 500 (SPX)
 FTSE 100 (UKX)
 NASDAQ 100 Stock (NDX)
 STOXX Europe 600 (SXXP)
 Russell 1000 (RIY)
 Russell 2000 (RTY)
 S&P/TSX Composite (SPTSX)
 IBEX 35 (IBEX)
 FTSE MIB (FTSEMIB)
 AEX (AEX)
 Swiss Market Index (SMI)
 Hang Seng (HSI)
 Hang Seng China Enterprises (HSCEI)
 S&P /ASX 200 (AS51)

Bonds

Money Market Companies: AAA Government or Treasury money market companies only with no asset backed securities or collateralised debt obligations.

Sovereign Fixed income: Stripped and unstripped national bonds issued by one of the following countries:

- Stripped and unstripped national bonds issued by USA, G10 and other European government bonds with minimal rating of AA
- Supranational bonds with a L-T issuer rating not lower than AAA
- US Agencies 100 per cent backed by the US Government

11. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS

(a) Fair value of financial instruments

Fair Value Measurement Principles of ETPs

The price per ETP is calculated daily to reflect the daily change in the relevant Index of the ETP, and will take into account all applicable fees and adjustments. On the issue date of the class, the price per ETP will be equal to its Issue Price. On any Valuation Date thereafter, the price per ETP is calculated according to a formula which reflects the price per ETP on the immediately preceding valuation date, and adjusted by:

- (i) the change in the level of the Index since such preceding valuation date,
- (ii) Index Adjustments (if applicable), and
- (iii) Fees.

“Index Adjustments” reflect any cash borrowing costs, cash lending revenues, stock borrowing costs, revenues on collateral or costs of transaction taxes, which are not already reflected in the Index. Costs and revenues such as these would be incurred by a hypothetical investor seeking to gain a leveraged or a short exposure to a Benchmark Index.

Derivatives

Derivatives comprise TRSs and are valued at fair value utilising predefined formulae and market prices consistent with the ETP valuation process. In the absence of readily available market prices the Swap Provider will provide the inputs for the valuation. Where possible management independently calculate the fair value and verify to the Swap Providers valuation and any variation is investigated. The valuation determined by the swap counterparty may be based on assumptions of market conditions at the time of valuation, similar arms’ length market transactions if available, reference to the current fair value of similar instruments and a variety of different valuation techniques such as the discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

The fair value of financial instruments carried at fair value is determined according to the following hierarchy:

(i) Level 1: Financial instruments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. Quoted prices for these instruments are not adjusted.

(ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and over-the-counter derivatives. As level 2 financial instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

(iii) Level 3: Financial instruments classified within level 3 have significant unobservable inputs, as they trade infrequently. Pricing inputs are unobservable for the financial instrument and include situations where there is little, if any, market activity for the financial instrument. As observable prices are not available for these securities, the Company has used valuation techniques to derive the fair value, if applicable.

The Company’s policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the last day of the accounting period. There were no transfers during the year between levels of the fair value hierarchy for financial assets which are recorded at fair value

11. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS *(continued)*

(b) Risk management

The Company is exposed to a variety of financial risks as a result of its activities. These risks include interest rate risk, credit /counterparty risk, market risk, price risk, currency risk and liquidity risk.

The Company has attempted to match the properties of its financial liabilities to its financial assets, to avoid significant elements of risk generated by mismatches of investment performance against its obligations together with any maturity or interest rate risk. The Company uses the net proceeds of the issuance of ETPs to enter into a TRS transaction to hedge its payment obligations in respect of each Class of the ETPs with one or more Swap Providers once the Swap Provider has delivered eligible collateral. The TRS for each Class of ETPs will produce net cash flows to service all of the Company's payment obligations in respect of that Class. This provides a hedge for the Company against market risk, price risk, currency risk, and liquidity risk.

This hedge is executed through the company's activities as described above and through its agreements with its counterparties, including in particular the Swap Providers, the Collateral Administrator, and Authorised Participants. Certain of the Company's daily operational activities and processes are outsourced to Link IFS Limited. See "Operational Risk" section below.

The risk profile of the Company is such that market, credit, liquidity and other risks of the investment securities are borne fully by the holders of ETPs issued. The ETPs issued are initially recorded at the value of the net proceeds received and are carried as financial liabilities at fair value through profit or loss. The ultimate amount to be repaid to the ETP holders will depend on the proceeds from the related investments. All substantial risks and rewards associated with the performance of the TRS are ultimately borne by the ETP holders. Therefore, any change in risk variables would not affect the equity or the results of the Company.

Following on below is an analysis and description of the risk types.

(c) Operational Risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, personnel and infrastructure, and from external factors other than credit, markets, and liquidity issues such as those arising from legal and regulatory requirements and generally accepted standards to corporate behaviour.

Operational risks arise from all of the Company's operations. The Company was incorporated with the purpose of engaging in those activities outlined in the preceding paragraphs. Certain management and administration functions are outsourced to Link IFS Limited and Boost Management Limited.

The Company is also exposed to operational risks such as custody risk. Custody risk is the risk of loss of collateral held in custody occasioned by the insolvency or negligence of the collateral administrator. Although an appropriate legal framework is in place that eliminates the risk of loss of value of the securities held by the custodian, in the event of its failure, the ability of the Company to transfer the securities might be temporarily impaired.

(d) Credit risk

Credit/Counterparty risk refers to the risk that each counterparty to a Swap Agreement will default on its contractual obligations as Swap Provider resulting in the Company being unable to make payment of amounts due to the ETP holders. Accordingly, the Company and the ETP holders are exposed to the creditworthiness of each relevant Swap Provider.

11. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS *(continued)*

(d) Credit risk *(continued)*

In order to mitigate this risk the Swap Provider will collateralise its obligations to the Issuer with eligible collateral being delivered with respect to the Issuer's net exposure to the Swap Provider in respect of all swap transactions entered into. Collateral is monitored on a daily basis with the aggregate euro market value of eligible collateral required to be transferred to the Issuer by the relevant Swap Provider in respect of any London Business Day calculated based on the Issuer's net exposure to the Swap Provider in respect of each swap transaction entered into with that Swap Provider daily (converted, if applicable, into euros at the prevailing currency exchange rate).

At the reporting date, the Company's investment securities at fair value through profit or loss were concentrated in the following asset types:

	30 June 2018	30 June 2017
	€	€
TRS – BNP Arbitrage S.N.C.	660,552,833	709,445,261

(credit rating as at date of signing of financial statements S&P: A (2016: A))

The Collateral Administrator for all collateral held on 30 June 2018 is The Bank of New York Mellon *(credit rating as at date of signing of financial statements S&P: AA- (2016: AA-))*

The Company's cash is held at Allied Irish Banks Plc in Ireland. The Directors feel that there is minimal risk to the Company by holding the Company cash with the one bank, as the Company has minimal cash held in the bank account at any given time.

(e)(i) Market risk

The Company's liabilities in respect of the ETPs issued is referenced to various equity and commodity indices and is managed by the Company by entering into a TRS with swap providers which exactly match the liability created by the issue of ETPs. If the price of an underlying index has gone up/down 5%, the prices of the ETPs and TRSs tracking that index will go up/down depending on the "Product Leverage Factor" (as defined in the base prospectus), in accordance with the formula for the price of the ETP in the base prospectus. For example, if the Product Leverage Factor is +3 then if the price of the underlying index has gone up/down by 5% over a period of one day, then both the ETP's price and the price of the matching TRS will go up/down respectively by 15% on that day (neglecting fees and funding and borrowing adjustments as detailed in the base prospectus). Any movement in the value of the ETPs issued will be offset by an equal movement in the matching TRS. Therefore, the Company's sensitivity to market movements is fully hedged.

(e)(ii) Interest rate risk

As the Company has entered into TRS to match the ETPs in issue there is deemed to be no interest rate risk to the Company.

The Company holds a current account at Allied Irish Banks Plc *(credit rating as at date of signing of financial statements S&P: BBB- (2017: BBB-))* in Ireland. Due to the level of cash held in the account the Directors do not believe that any move in interest rates would affect the operations of the Company.

11. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS (*continued*)

(e)(iii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. As the Company has entered into TRS to match the ETPs in issue there is deemed to be no currency risk to the Company.

(e)(iv) Price risk

Price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market. The Company does not consider price risk to be a significant risk to the Company as any fluctuation in the value of financial assets designated at fair value through profit or loss held by the Company will be offset by movements in the fair value of the issued ETPs.

Sensitivity Analysis

Any changes in the values of the TRS held by the Company would not have any effect on the equity or profit or loss of the Company as any fair value fluctuations are ultimately borne by either the swap counterparties or the holders of the ETPs issued by the Company.

A change of 100 basis points in the underlying index of ETPs in issue at the reporting date would have increased or (decreased) the fair value of financial liabilities by €5,518,690 (2017: €4,005,715). A change of 100 basis points in the underlying index of TRSs entered into at the reporting date would have increased (or decreased) the fair value of financial assets by €5,518,690 (2017: €4,005,715).

(f) Liquidity risk

Liquidity risk is the risk that the Company may be unable to fulfil its obligations (by delivery of cash) whether expected or unexpected. The legal maturity of the ETPs is 30 November 2062. ETPs cannot be issued without a matching TRS being in place. The maturity profile of the TRS is a minimum of two years with one year rolling contracts thereafter. Should the swap counterparty wish to terminate there is a requirement for one year notice of termination to be issued to the Company. This allows the Company the time to obtain a new Swap Provider. If no replacement Swap Provider can be identified the Issuer would redeem all outstanding ETPs. ETPs can be issued and redeemed daily, therefore this is the earliest maturity date for the purpose of the maturity analysis below. The Issuer's payment obligations in respect of a redemption of ETPs will be covered by payments received by the Issuer from the Swap Provider(s) under the terms of the TRSs, notwithstanding the contractual maturity of the TRSs as noted below.

(g) Offsetting Financial Assets and Financial Liabilities

The Company does not offset Financial Assets and Financial Liabilities. These are presented separately in the Statement of Financial Position.

Financial assets and liabilities are offset and the net amount presented in the Statement of Financial Position when, and only when, the Company has a legal right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions.

Financial assets and liabilities subject to offsetting, enforceable master netting agreements and similar agreements:
