CDD/AML requirements for physical redemption

WisdomTree Metal Securities Limited (the “Issuer”) is required by law to have in place relevant anti-money laundering and prevention of terrorist financing controls, policies and procedures when dealing with redemptions of WisdomTree Physical Swiss Gold Securities (“SGBS”) and WisdomTree Core Physical Gold Securities (“WGLD”) and any exchange for physical bullion by security holders who are not Authorised Participants. To satisfy those requirements, the Issuer uses a risk-based approach to conducting its customer due diligence (“CDD”) and anti-money laundering (“AML”) review.

The CDD/AML review consists of two steps:

1.

In the first step, both the beneficial owner of WisdomTree Physical Swiss Gold Securities or WisdomTree Core Physical Gold Securities seeking redemption and any broker/dealer acting on his/her behalf must submit certain documentation to the Issuer. The required documentation is detailed in Annex A below. Investors should note the following with respect to the submission of documents:

- + Individuals must provide either certified copies or originals of all documents: required documentation generally consists of proof of identify, residential address and ownership of the relevant bank account.
- + Broker/dealers acting on behalf of investors must simply provide proof of regulatory supervision.
- + For any redemption that involves a transfer of bullion to a Physical Security Holder Bank, the investor must provide a bank statement for the account into which the bullion is to be transferred. The statement should show the investor’s name, residential address and account details.
- + If the Redemption Form will be signed under a power of attorney, equivalent information will need to be provided in respect of the individual/entity signing the power of attorney.
- + The Issuer may also request such information as may be required on a case by case basis to

evidence the relevant security holder's holding of WisdomTree Physical Swiss Gold Securities or WisdomTree Core Physical Gold Securities prior to a redemption form being submitted and alongside this CDD process.

- + The Issuer (and/or its service providers or advisors) may request further information in addition to the requirements as set out in this document on a case by case basis.

2.

In the second step, the Issuer will conduct a variety of checks against the information provided. Those checks can last anywhere from one to a number of days.

It is very important that the Issuer receives the correct documentation in a timely manner. The redemption process cannot begin (and redemption order will not be considered valid) until the Issuer has received the documentation and completed its review. Once the Issuer has completed its review in a satisfactory manner, it will confirm receipt of a redemption request and the timing for a redemption will begin. For more information on the redemption process, please review the Terms and Conditions for the Exchange for Physical Bullion, the instructions for redemption and the FAQs, which can be found at <https://www.wisdomtree.eu/en-gb/resource-library/sgbs-redemption>.
